Long Range Gong Match June 2, 2018

We had eleven entries today. Setup began early and Doc Jim Harvey supplied the donuts and kolaches to fortify the crew. Deaf Wille showed up with his grandson Corn Dog [aka Wesley] as did Ramblin Gambler with his son Tyler to introduce them long range shooting. After setting up the shade covers and arranging the tables, setting targets, and painting, the sighting in began with bangs, clangs, and smoke.

At 9:30, the Long Range Master assembled the shooters, reviewed the rules and procedures, and determined the shooters for the three relays. The first gong shot today rang with a bullseye and the last shot down range was made by 1:45 after shooters fired 275 rounds at those pesky steel plates, all with intense good-natured competition. The scores were checked and re-checked.
